### PUBLIC WORKS

#### **Reading Your Water Meter**

Reading your water meter on a regular basis will help you track water use trends and catch leaks. By keeping a record of all readings, you will be able to detect trends from season to season and year to year. If your household changes in any way that affects water (such as a new family member or a plumbing upgrade), you will be able to determine the effect of the change. For your convenience, the City has a How to Read Your Water Meter [video](#), along with a water meter read tracking [form](#), on its website.
