

## CITY OF BRENTWOOD QUOTATION REQUEST

This is an inquiry, not an order.

PLEASE QUOTE PROMPTLY

**QUOTE CLOSING DATE: TUESDAY, MARCH 31, 2015**

Fill in your lowest net price opposite the item or items listed herein and complete all applicable blank spaces. Any erasure or correction in this quotation sheet must be initialed by the Bidder. Bidder shall be bound by any irregularities in this quote; however, City may reject this quote based on irregularities. **This quotation request must be complete, promptly executed by the Bidder and received at the City of Brentwood, 35 Oak Street, Brentwood, CA 94513, Attention: Aaron Wanden, by 3 o'clock P.M. (local time). Quotes may also be submitted by facsimile to (925) 516-5447 or emailed to [awanden@brentwoodca.gov](mailto:awanden@brentwoodca.gov).**

### Rough Mow/Disc Weed Abatement of City Owned Property

All sites listed below shall be mowed/disked one time during the spring 2015 season. Please see attached Weed Abatement Standards. The debris generated from weed abatement activities can be brought to the City's Corporation Yard at 2201 Elkins Way at no charge.

| Map Weed # | Area/Location   | Acres | Cost |

**Contractor awarded this work will be required to sign a City of Brentwood Contract for Weed Abatement Services (the "Contract") and meet all requirements as specified within the document. The Contract stipulates that Contractor and any subcontractor will pay not less than the specified prevailing rates of wage to all workers employed in performance of the work. Please bid accordingly.**

**THE BIDDER AGREES AS FOLLOWS:**

- a) That the Bidder will furnish to The City, in conformity with the conditions set out on the reverse side hereof and any specifications, plans, price schedules, samples, instructions, addenda or other details, provided in connection therewith or referred to therein, the goods, materials, articles, equipment, work or services, specified in this quotation sheet, at the prices quoted herein, upon receipt of an official order therefor.
- b) That the Bidder warrants that any goods, materials, articles or equipment to be supplied under or pursuant to any official order based on this quotation sheet, that is or are to be made or used for a particular purpose will be fit and suitable for that purpose and are free of material defects.
- c) That the goods, materials, articles, equipment, work or services, specified or called for in or under this quotation sheet, will be delivered or completed within the period set out above as the guaranteed period of delivery or completion after receipt of an office order therefor.
- d) That The City may accept any quotation in whole or in part, whether the price or prices be the lowest or not, and may reject any or all quotations.

**This form must be completed, properly signed and received on or before the date specified, or your quotation will not be considered.**

**CITY OF BRENTWOOD**  
**WEED ABATEMENT STANDARDS**

The following standards are the *minimum* requirements for the removal of weeds. The City of Brentwood may require additional or more stringent abatement because of special conditions with terrain, growth, locations, land use, or fire history of the property. These standards apply to all weeds, grass or other vegetation that is normally dry during the summer, and all combustible rubbish.

**General Requirements—Applies to All Properties:**

1. Remove all grass and weeds that exceed (3") three inches in height, including planter strips (the area between the curb and sidewalk), edging along fence lines, sidewalks, and next to buildings or structures by cutting, mowing, or disking.
2. Remove all cuttings and combustible waste material.
3. Store all wood, fuel, lumber, or other combustible materials in a neat and orderly manner not less than 30 feet from all weeds, grass, crops, or other vegetation which could be expected to burn.
4. Remove or relocate all rubble, junk, piles of dirt etc., which could obstruct or impede vehicles and equipment used for abatement work or fire suppression.
5. Parcels 10 acres or less in size shall be completely abated whenever growth exceeds a height of (3") three inches.
6. Parcels more than 10 acres in size shall have 30-foot wide firebreaks separating the property into areas of not more than 5 acres each; around all structures, combustible storage, groups of trees, shrubs, and brush; and along all ridges and each side of all roads, fence lines, property lines, ditches and creeks.

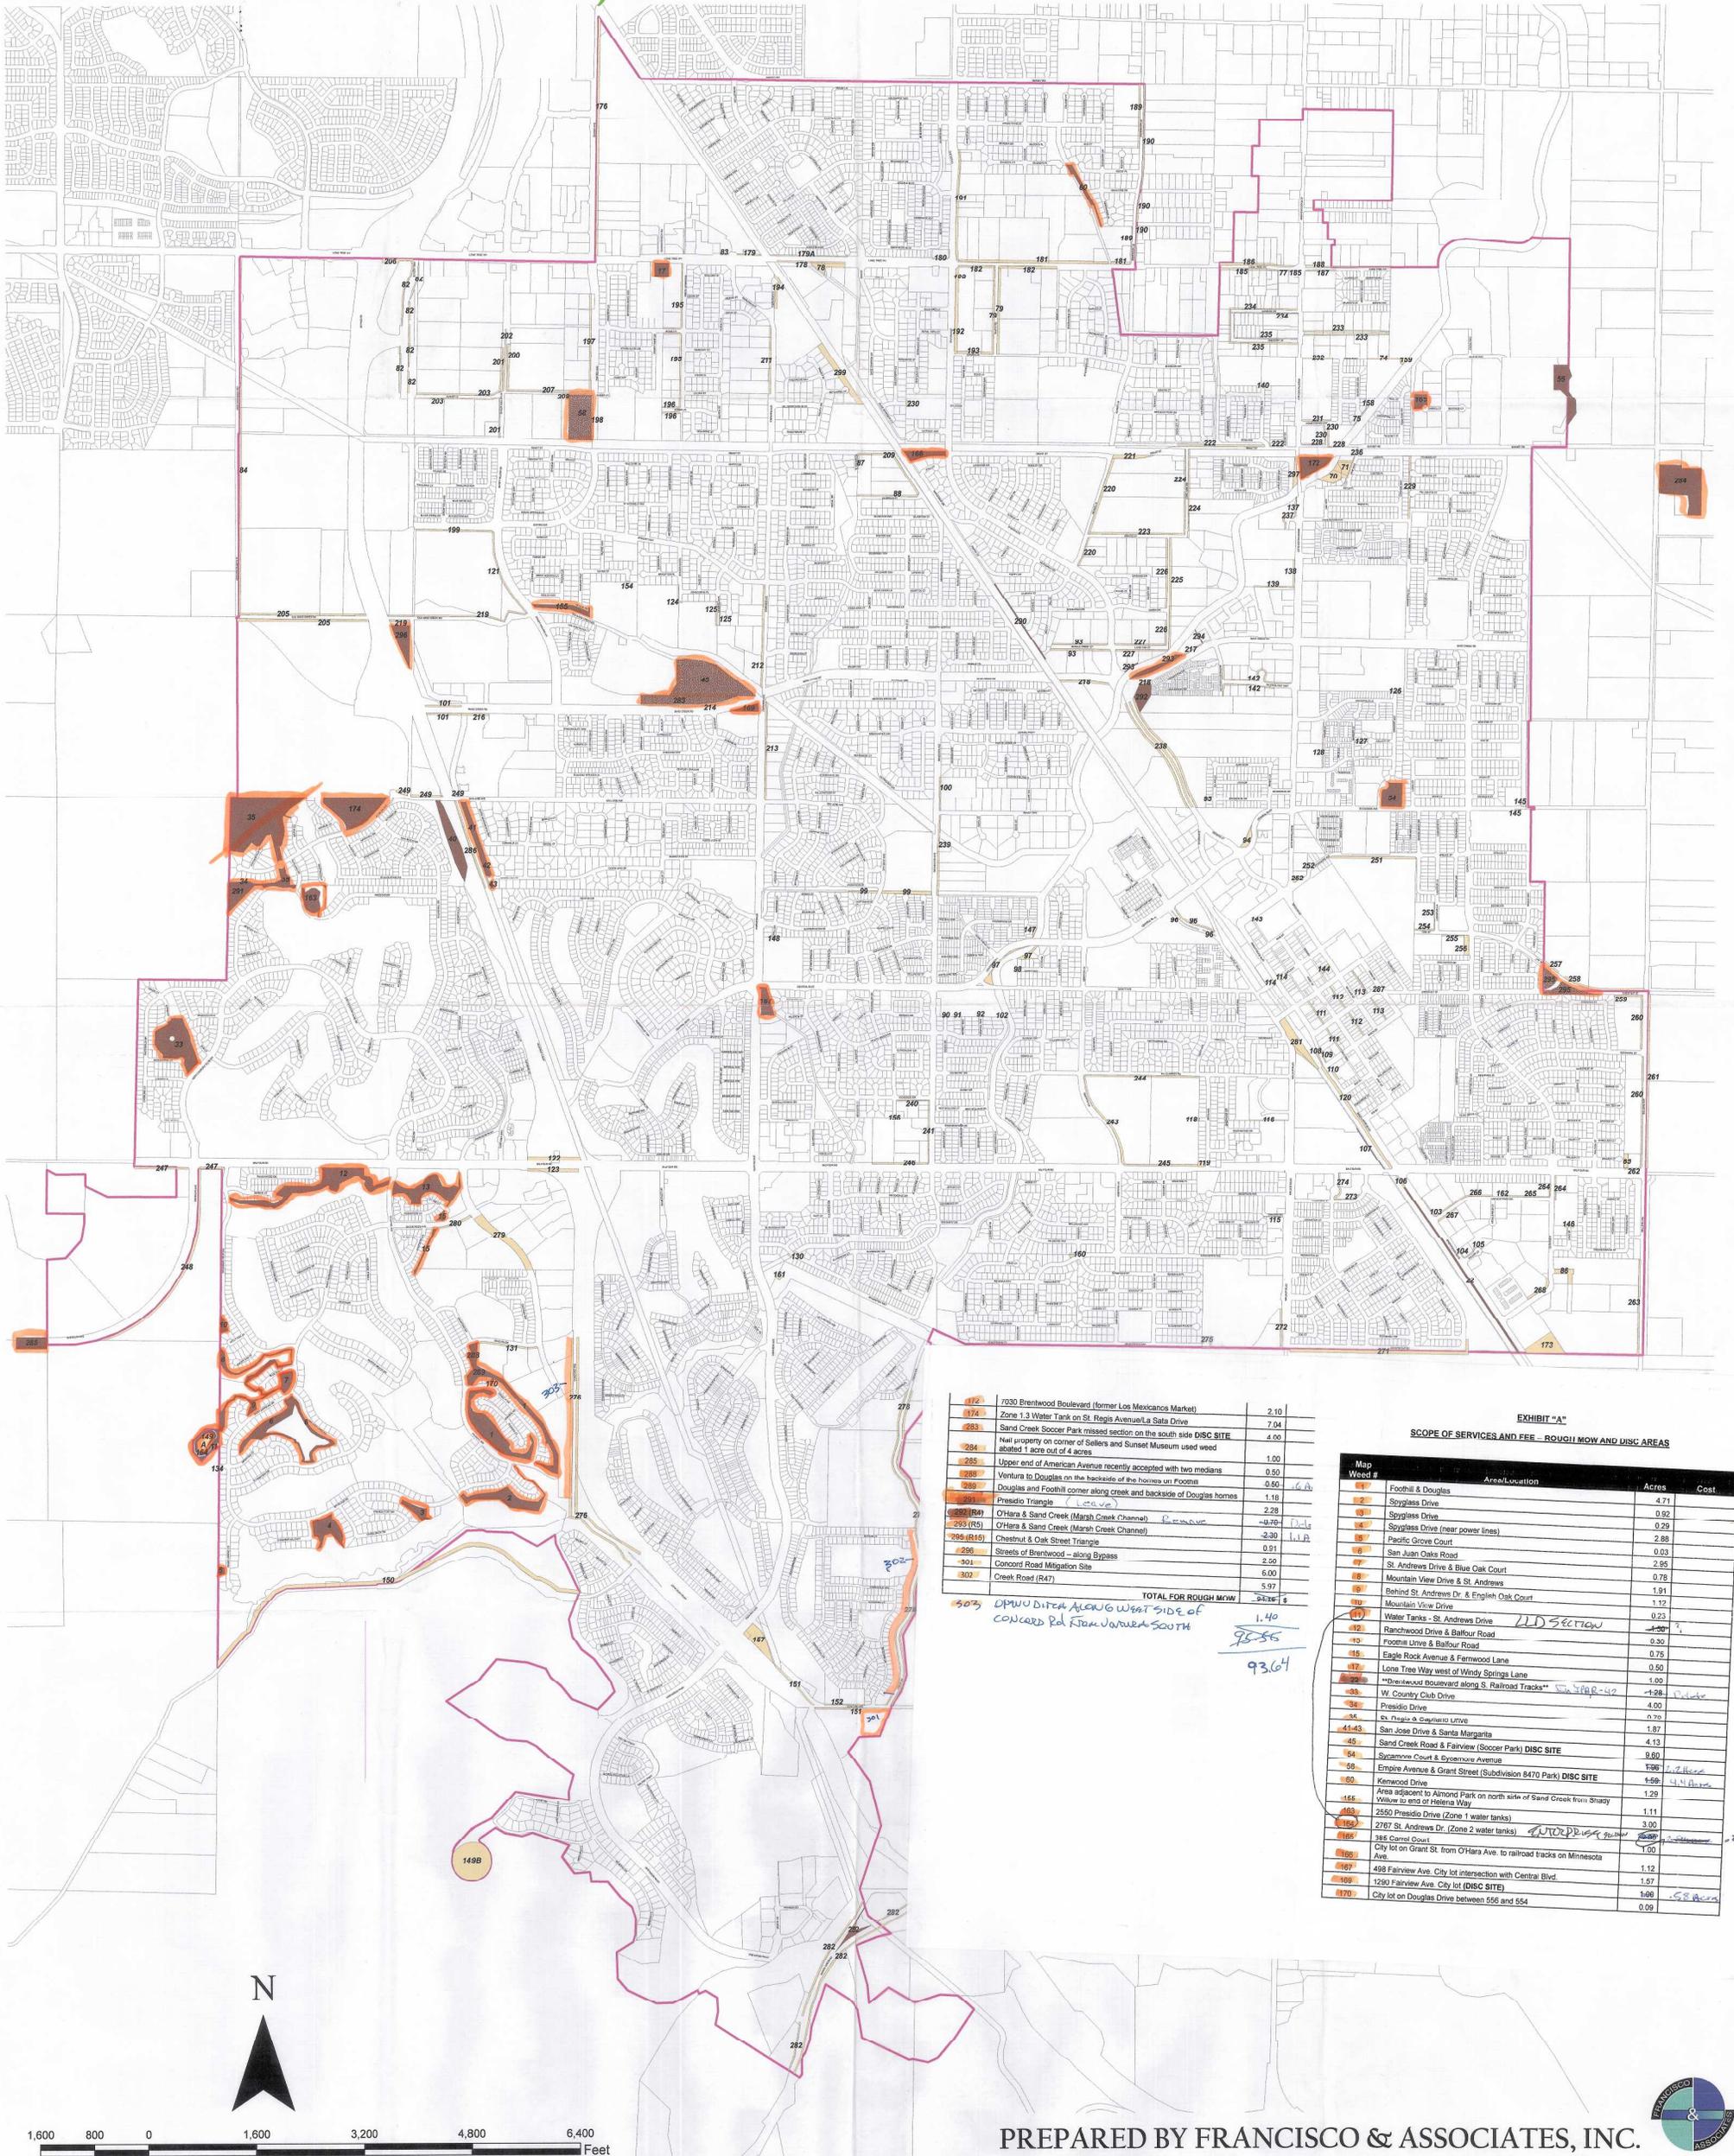

**Approved Methods for Weed Abatement:**

**Disking.** All disking work, including firebreaks, shall be completed so that all of the weeds, grass, crops, or other vegetation or organic material which could be expected to burn, shall be completely removed or turned under so there is insufficient fuel to sustain or allow the spread of a fire.

**Mowing.** Use of a rotary mower, high wheel mower, or tractor mower are all acceptable methods of abating overgrown grass and weeds. Repeat as necessary to control weed growth so that it does not exceed (3") three inches in height.

**Weed-eating (use of a rotary string trimmer).** Highly recommended for use on steep or uneven terrain and for edging parcels where disking or tractor mowing is not practical or can be completed in a safe manner.
